CINQ + CINQ EDGE

BROUGHT TO YOU BY C-SUITE

CINQ ANNUAL SUBSCRIPTION

CINQ EDGE HARDWARE

SMARTER RAIL MONITORING. CONNECTED PERFORMANCE.

Cinq is COMET's rail intelligence dashboard, combining a powerful cloud-based dashboard with Cinq Edge hardware to deliver near real-time, site level data. The system works as one; Cinq Edge requires an active Cinq subscription to operate, ensuring everything runs through a single, integrated platform.

KEY BENEFITS

- Know exactly what's on site and in motion—improve inventory control
- Independent records that support accurate demurrage costs with precise tracking and time-stamped movement logs
- Automate manual processes to reduce labor demands and improve safety
- Move from reactive problem-solving to predictive planning with historical and real-time insights
- Built for rail environments, backed by COMET's decades of industry expertise
